

JAPANESE EMBASSY HELLS CELEBRATION TO HONOR PRINCE

Joins in Ceremonies Which Are Also Being Conducted Today in Flowery Kingdom.

AMBASSADOR SOTO HOST

Countess Gizycka Leases Residence of Commodore Richard T. Mulligan, U. S. N.

An informal but interesting celebration was held at the Japanese embassy in K street this morning in honor of the crown prince of Japan. The eldest son of the Emperor of Japan, Prince Hiro Hito, was officially declared crown prince, July 30, 1912, following his father's accession to the throne, but as the nation was in mourning for the late Emperor, festivities in honor of the event were deferred. The ambassador, Mr. Sato, was host, and there were no guests except the members of the embassy staff.

Countess Gizycka has leased the residence of Commodore Richard T. Mulligan, U. S. N., retired, 1601 R street, for the season. It is a handsome home well adapted for entertaining, and was built by Commodore Mulligan's mother, Mrs. Ogden. Since Mrs. Mulligan's death a year ago, Commodore Mulligan has found the house too large for him. He will spend the greater part of the winter traveling.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick, or well, should be drinking before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile, and poisonous toxins; thus cleansing, sweetening, and purifying the entire alimentary canal before the morning food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste, and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs. The millions of people who are both suffering with constipation, bilious spells, stomach trouble, rheumatic stiffness, others who have sallow skins, blood disorders, and sickly complexions are urged to take a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make a very pronounced crank on the subject of internal sanitation. Adv.

A Sure Way To

End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky, and soft, and look and feel a hundred times better.—Adv.
